Analytic subject index

α-SiC : H films
– Structural evolution in α-SiC:H induced by thermal annealing as deduced by optical properties - Demichelis and Kaniadakis 179 (1992) 59
Actinide impurities in Pd
– Electronic structure of U, Np, Pu impurities in Pd - Schick et al. 179 (1992) 369
Al–nSi
– Determination of the density of Si–metal interface states and excess capacitance caused by them - Türüt and Sağlam 179 (1992) 285
Anderson localization
– The domino billiard - Doron et al. 179 (1992) 1
Anisotropy, biaxial
– Frequency dependent biaxial anisotropy due to the Rosenfeld tensor, an FMD computer simulation - Evans and Woźniak 179 (1992) 6
Antiferromagnetism
– Complementary change of itinerant — and lattice vibration with magnetic field in the electrical resistivity of γMn–Ni alloy - Nishida 179 (1992) 215
– Effect of pressure on the Néel temperature of YMn_2 - Kim-Ngan et al. 179 (1992) 231
– High-field magnetization of heavy-fermion UPd_2Al_3 - De Visser et al. 179 (1992) 84
– Magnetoresistance and metamagnetic transitions in UPdIn - Nakotte et al. 179 (1992) 269
Ar
– A molecular dynamics study of the evaporation of small argon clusters - Rey et al. 179 (1992) 273
Atomic hyperpolarisability
– Laser enhanced (optical) NMR spectroscopy, the role of — - Evans 179 (1992) 157

Binary mixture model
– Non-linear *I–V* characteristics of double Schottky barriers and polycrystalline semiconductors - Canessa and Nguyen 179 (1992) 335
Binding energy
– The — of hydrogenic impurities in quantum well structures under electric fields - Han and Hsieh 179 (1992) 355
Birefringence, magnetic linear
– Peculiarities of magnetic linear birefringence of rare-earth paramagnetic garnets - Kolmakova and Popov 179 (1992) 19
Blume–Capel model
– Magnetization curves of the spin-$\frac{3}{2}$ — - Kaneyoshi and Jaščur 179 (1992) 317
Bonding types
– On the — of the $NbRh_M$ phases - Schubert 179 (1992) 349
Bose gas, nonideal
– Surface excitations of a nonideal Bose gas - Pikhitsa 179 (1992) 201

Chalcogenide glass
– Structural and crystallization kinetics studies of — $Se_{0.8}Te_{0.2}$ - Afify 179 (1992) 48
Circular dichroism
– Field applied molecular dynamics (FMD) computer simulation of — and optical rotatory dispersion - Evans et al. 179 (1992) 133
Compound, III–VI
– Volume low frequency dispersion (LFD) in high resistivity ε-GaSe - Anis et al. 179 (1992) 278
Compounds, III–V
– Calculations of the spin–lattice coupling coefficients for $3d^5$ ions in III–V compounds - Zheng 179 (1992) 197
Coulomb blockade
– Villain approximation for the — problem in small tunnel junctions - Golub 179 (1992) 94
Coupling strength, intersublattice
– Intersublattice interactions in $R_2Fe_{17-x}Al_x$ compounds (R = Tb, Dy, Er and Tm) - Jacobs et al. 179 (1992) 177
Crystal field
– Calculations of the spin–lattice coupling coefficients for $3d^5$ ions in III–V compounds - Zheng 179 (1992) 197
– — potential of $NdCu_2Si_2$ - Goremychkin et al. 179 (1992) 184
– Spin–lattice coupling coefficients G_{11} and G_{44} for $3d^5$ ions in twelve-fold cubic coordination - Zheng 179 (1992) 35
Crystallization kinetics
– Structural and — studies of chalcogenide glass $Se_{0.8}Te_{0.2}$ - Afify 179 (1992) 48
Cs, liquid
– Molecular dynamics study of the structure of expanded liquid rubidium and caesium - Cheng et al. 179 (1992) 125
Cu(II) compounds
– A study of the chemical shift of the X-ray absorption K-edge of copper in some Cu(II) systems - Pandey and Chetal 179 (1992) 55

Dielectric behaviour
– Volume low frequency dispersion (LFD) in high resistivity ε-GaSe - Anis et al. 179 (1992) 278
$Dy_xTb_{1-x}VO_4$
– Magnetic field induced structural phase transitions in mixed Jahn–Teller — crystals - Kaplan and Vasilyev 179 (1992) 65

Electrical resistivity
– Complementary change of itinerant antiferromagnetism and lattice vibration with magnetic field in the — of γMn–Ni alloy - Nishida 179 (1992) 215
– Effect of pressure on the Néel temperature of YMn_2 - Kim-Ngan et al. 179 (1992) 231
– Influence of Al-atoms on the spin fluctuation scattering in $R(Co, Al)_2$ compounds - Duc et al. 179 (1992) 111
Electron backscattering
– Quantum interference phenomena in — by a random medium in a magnetic field - Gorodnichev and Rogozkin 179 (1992) 312
Electron correlations model
– On the bonding types of the $NbRh_M$ phases - Schubert 179 (1992) 349

Electron polarizability
– Energy shift and polarizability of a quantum confined charge carrier - Tran Thoai 179 (1992) 264
Electronic structure calculation
– Electronic structure of U, Np, Pu impurities in Pd - Schick et al. 179 (1992) 369
ESR
– Calculations of the spin–lattice coupling coefficients for $3d^5$ ions in III–V compounds - Zheng 179 (1992) 197
– Spin–lattice coupling coefficients G_{11} and G_{44} for $3d^5$ ions in twelve-fold cubic coordination - Zheng 179 (1992) 35
– — study of the electronic properties of the new organic conductors κ-(BEDT-TTF)$_2$Cu[N(CN)$_2$]X, X = Br; I - Kataev et al. 179 (1992) 24
ESR, optical
– Quantum theory of optical NMR and ESR in atoms - Evans 179 (1992) 237
– The coupling of three angular momenta in the optical NMR and ESR of atoms: quantum theory - Evans 179 (1992) 342
Excess capacitance
– Determination of the density of Si–metal interface states and — caused by them - Türüt and Sağlam 179 (1992) 285

Fermi surface
– The — properties of vanadium - Solanki et al. 179 (1992) 257
Ferrimagnetism
– Intersublattice interactions in $R_2Fe_{17-x}Al_x$ compounds (R = Tb, Dy, Er and Tm) - Jacobs et al. 179 (1992) 177

GaSe
– Volume low frequency dispersion (LFD) in high resistivity ε- — - Anis et al. 179 (1992) 278

Heavy fermions
– Crystal field potential of $NdCu_2Si_2$ - Goremychkin et al. 179 (1992) 184
– High-field magnetization of heavy-fermion UPd_2Al_3 - De Visser et al. 179 (1992) 84
– Th-doped URu_2Si_2: influence of "Kondo holes" on coexisting superconductivity and magnetism - Lopez de la Torre et al. 179 (1992) 208
^{3}He–^{4}He mixtures
– Counterflow in superfluid — - Mudde and Van Beelen 179 (1992) 69
Heterostructure, double-barrier
– Characteristic times for resonant tunneling through double barrier heterostructures - Muga and Cruz 179 (1992) 326
High-ε crystal
– Modulation of a laser beam in longitudinal magnetised crystals with a high dielectric constant - Gadkari and Ghosh 179 (1992) 76
Hydrogenic impurities
– The binding energy of — in quantum well structures under electric fields - Han and Hsieh 179 (1992) 355
Hyperfine interaction
– — and crystalline environment in $NdTi(Fe_{1-x}Co_x)_{11}$ compounds by ^{57}Fe Mössbauer study - Hu et al. 179 (1992) 89

Hyperfine structure
– High precision laser-RF spectroscopic measurements of the — of vanadium-51 - El-Kashef and Ludwig 179 (1992) 103

Interface states
– Determination of the density of Si–metal — and excess capacitance caused by them - Türüt and Sağlam 179 (1992) 285

Irregular scattering
– The domino billiard - Doron et al. 179 (1992) 1

I–V characteristics
– Non-linear — of double Schottky barriers and polycrystalline semiconductors - Canessa and Nguyen 179 (1992) 335

Jahn–Teller crystals
– Magnetic field induced structural phase transitions in mixed Jahn–Teller $Dy_xTb_{1-x}VO_4$ crystals - Kaplan and Vasilyev 179 (1992) 65

K-edge spectra
– A study of the chemical shift of the X-ray absorption K-edge of copper in some Cu(II) systems - Pandey and Chetal 179 (1992) 55

Kondo holes
– Th-doped URu_2Si_2: influence of "—" on coexisting superconductivity and magnetism - Lopez de la Torre et al. 179 (1992) 208

$KTaO_3$
– Spin–lattice coupling coefficients G_{11} and G_{44} for $3d^5$ ions in twelve-fold cubic coordination - Zheng 179 (1992) 35

Laser-beam modulation
– Modulation of a laser beam in longitudinal magnetised crystals with a high dielectric constant - Gadkari and Ghosh 179 (1992) 76

Lattice specific heat
– The — of Li and Na at high temperature and under pressure - Kagaya et al. 179 (1992) 309

Lattice vibration
– Complementary change of itinerant antiferromagnetism and — with magnetic field in the electrical resistivity of γMn–Ni alloy - Nishida 179 (1992) 215

Lennard–Jones clusters
– A molecular dynamics study of the evaporation of small argon clusters - Rey et al. 179 (1992) 273

Li
– The lattice specific heat of — and Na at high temperature and under pressure - Kagaya et al. 179 (1992) 309

LMTO
– The Fermi surface properties of vanadium - Solanki et al. 179 (1992) 257

Magnetoresistance
– — and metamagnetic transitions in UPdIn - Nakotte et al. 179 (1992) 269

Metallic glass
– Phonon dispersion in — $Mg_{70}Zn_{30}$ - Agarwal and Kachhava 179 (1992) 43

$Mg_{70}Zn_{30}$
– Phonon dispersion in metallic glass — - Agarwal and Kachhava 179 (1992) 43
Mn–Ni alloy
– Complementary change of itinerant antiferromagnetism and lattice vibration with magnetic field in the electrical resistivity of γ— - Nishida 179 (1992) 215
Molecular dynamics
– A — study of the evaporation of small argon clusters - Rey et al. 179 (1992) 273
– Field applied — (FMD) computer simulation of circular dichroism and optical rotatory dispersion - Evans et al. 179 (1992) 133
– Frequency dependent biaxial anisotropy due to the Rosenfeld tensor, an FMD computer simulation - Evans and Woźniak 179 (1992) 6
– — study of the structure of expanded liquid rubidium and caesium - Cheng et al. 179 (1992) 125
Monte Carlo
– — analysis of order–disorder reactions in binary alloys with hexagonal structure - Bichara et al. 179 (1992) 221
Mössbauer spectroscopy
– Hyperfine interaction and crystalline environment in $NdTi(Fe_{1-x}Co_x)_{11}$ compounds by ^{57}Fe Mössbauer study - Hu et al. 179 (1992) 89

Na
– The lattice specific heat of Li and — at high temperature and under pressure - Kagaya et al. 179 (1992) 309
$NbRh_M$ alloys
– On the bonding types of the $NbRh_M$ phases - Schubert 179 (1992) 349
$NdCu_2Si_2$
– Crystal field potential of — - Goremychkin et al. 179 (1992) 184
$NdTi(Fe_{1-x}Co_x)_{11}$
– Hyperfine interaction and crystalline environment in — compounds by ^{57}Fe Mössbauer study - Hu et al. 179 (1992) 89
Neutron scattering
– Crystal field potential of $NdCu_2Si_2$ - Goremychkin et al. 179 (1992) 184
NMR
– Laser enhanced (optical) — spectroscopy, the role of atomic hyperpolarisability - Evans 179 (1992) 157
NMR, optical
– The coupling of three angular momenta in the optical NMR and ESR of atoms: quantum theory - Evans 179 (1992) 342
– Quantum theory of optical NMR and ESR in atoms - Evans 179 (1992) 237
NMR inhomogeneous broadening
– On the problem of pure superradiance in the radiofrequency range at — - Fokina et al. 179 (1992) 171

Optical properties, α-SiC:H
– Structural evolution in α-SiC:H induced by thermal annealing as deduced by optical properties - Demichelis and Kaniadakis 179 (1992) 59

Optical rotatory dispersion
– Field applied molecular dynamics (FMD) computer simulation of circular dichroism and — - Evans et al. 179 (1992) 133
Order–disorder
– Monte Carlo analysis of — reactions in binary alloys with hexagonal structure - Bichara et al. 179 (1992) 221
Order–disorder transition
– The domino billiard - Doron et al. 179 (1992) 1
Organic conductors
– ESR study of the electronic properties of the new — κ-(BEDT-TTF)$_2$Cu[N(CN)$_2$]X, X = Br; I - Kataev et al. 179 (1992) 24

Pd
– Electronic structure of U, Np, Pu impurities in — - Schick et al. 179 (1992) 369
Penrose tilings, 2-d
– Five-fold quasiperiodic tilings generated by inflated rhombuses with identical boundaries: possible application to the growth of quasicrystals - Balagurusamy et al. 179 (1992) 249
Phase diagram, binary alloys
– Monte Carlo analysis of order–disorder reactions in binary alloys with hexagonal structure - Bichara et al. 179 (1992) 221
Phase transition
– Magnetic field induced structural phase transitions in mixed Jahn–Teller $Dy_xTb_{1-x}VO_4$ crystals - Kaplan and Vasilyev 179 (1992) 65
Phonon dispersion
– — in metallic glass $Mg_{70}Zn_{30}$ - Agarwal and Kachhava 179 (1992) 43
Pressure dependence, electrical resistivity
– Effect of pressure on the Néel temperature of YMn_2 - Kim-Ngan et al. 179 (1992) 231

Quadrupolar moment
– Magnetization curves of the spin-$\frac{3}{2}$ Blume–Capel model - Kaneyoshi and Jaščur 179 (1992) 317
Quantum chaos
– The domino billiard - Doron et al. 179 (1992) 1
Quantum well
– Energy shift and polarizability of a quantum confined charge carrier - Tran Thoai 179 (1992) 264
– The binding energy of hydrogenic impurities in — structures under electric fields - Han and Hsieh 179 (1992) 355
Quasicrystals, growth
– Five-fold quasiperiodic tilings generated by inflated rhombuses with identical boundaries: possible application to the growth of quasicrystals - Balagurusamy et al. 179 (1992) 249

R(Co, Al)$_2$
– Influence of Al-atoms on the spin fluctuation scattering in — compounds - Duc et al. 179 (1992) 111

$R_2(Fe, Al)_{17}$
– Intersublattice interactions in $R_2Fe_{17-x}Al_x$ compounds (R = Tb, Dy, Er and Tm) - Jacobs et al. 179 (1992) 177
Rare-earth garnets
– Peculiarities of magnetic linear birefringence of rare-earth paramagnetic garnets - Kolmakova and Popov 179 (1992) 19
Rb, liquid
– Molecular dynamics study of the structure of expanded liquid rubidium and caesium - Cheng et al. 179 (1992) 125
Relativistic effects
– Electronic structure of U, Np, Pu impurities in Pd - Schick et al. 179 (1992) 369
Resonant tunneling
– Characteristic times for — through double barrier heterostructures - Muga and Cruz 179 (1992) 326

Sc
– Lattice mechanical properties of yttrium and Scandium - Dutta et al. 179 (1992) 117
Schottky barrier
– Non-linear *I–V* characteristics of double Schottky barriers and polycrystalline semiconductors - Canessa and Nguyen 179 (1992) 335
$Se_{0.8}Te_{0.2}$
– Structural and crystallization kinetics studies of chalcogenide glass — - Afify 179 (1992) 48
Shock waves, converging
– Investigation of the superfluid vorticity field produced behind an imploding second-sound shock wave - Stamm and Fiszdon 179 (1992) 191
Soft modes
– Surface excitations of a nonideal Bose gas - Pikhitsa 179 (1992) 201
Spectral statistics
– The domino billiard - Doron et al. 179 (1992) 1
Spectroscopy
– High precision laser-RF spectroscopic measurements of the hyperfine structure of vanadium-51 - El-Kashef and Ludwig 179 (1992) 103
Spin fluctuations
– Influence of Al-atoms on the spin fluctuation scattering in $R(Co, Al)_2$ compounds - Duc et al. 179 (1992) 111
Spin–lattice coupling
– Calculations of the — coefficients for $3d^5$ ions in III–V compounds - Zheng 179 (1992) 197
– — coefficients G_{11} and G_{44} for $3d^5$ ions in twelve-fold cubic coordination - Zheng 179 (1992) 35
SQUID
– The determination of the supercurrent–phase relation of superconducting weak links in static condition - De Wolff et al. 179 (1992) 295
Superconductivity
– Th-doped URu_2Si_2: influence of "Kondo holes" on coexisting — and magnetism - Lopez de la Torre et al. 179 (1992) 208
– ESR study of the electronic properties of the new organic conductors κ-$(BEDT\text{-}TTF)_2Cu[N(CN)_2]X$, X = Br; I - Kataev et al. 179 (1992) 24

Supercurrent–phase relation
– The determination of the — of superconducting weak links in static condition - De Wolff et al. 179 (1992) 295
Superfluid He
– Counterflow in superfluid ^{3}He–^{4}He mixtures - Mudde and Van Beelen 179 (1992) 69
– Investigation of the superfluid vorticity field produced behind an imploding second-sound shock wave - Stamm and Fiszdon 179 (1992) 191
Superradiance
– On the problem of pure — in the radiofrequency range at NMR inhomogeneous broadening - Fokina et al. 179 (1992) 171
Surface excitations
– — of a nonideal Bose gas - Pikhitsa 179 (1992) 201

Three-body interactions
– Lattice mechanical properties of yttrium and scandium - Dutta et al. 179 (1992) 117
Time-reversed trajectories
– Quantum interference phenomena in electron backscattering by a random medium in a magnetic field - Gorodnichev and Rogozkin 179 (1992) 312
Tunnel junctions
– Villain approximation for the Coulomb blockade problem in small — - Golub 179 (1992) 94
Turbulence, superfluid
– Investigation of the superfluid vorticity field produced behind an imploding second-sound shock wave - Stamm and Fiszdon 179 (1992) 191
Turbulent flow
– Counterflow in superfluid ^{3}He–^{4}He mixtures— - Mudde and Van Beelen 179 (1992) 69

UPd_2Al_3
– High-field magnetization of heavy-fermion — - De Visser et al. 179 (1992) 84
UPdIn
– Magnetoresistance and metamagnetic transitions in — - Nakotte et al. 179 (1992) 269
URu_2Si_2, Th-doped
– Th-doped URu_2Si_2: influence of "Kondo holes" on coexisting superconductivity and magnetism - Lopez de la Torre et al. 179 (1992) 208

V
– High precision laser-RF spectroscopic measurements of the hyperfine structure of vanadium-51 - El-Kashef and Ludwig 179 (1992) 103
– The Fermi surface properties of vanadium - Solanki et al. 179 (1992) 257

Weak links
– The determination of the supercurrent–phase relation of superconducting — in static condition - De Wolff et al. 179 (1992) 295
Weak localization
– Quantum interference phenomena in electron backscattering by a random medium in a magnetic field - Gorodnichev and Rogozkin 179 (1992) 312

X-ray absorption
– A study of the chemical shift of the — K-edge of copper in some Cu(II) systems - Pandey and Chetal 179 (1992) 55

Y
– Lattice mechanical properties of yttrium and scandium - Dutta et al. 179 (1992) 117

$Y(Mn, Cu)_2$
– Effect of pressure on the Néel temperature of YMn_2 - Kim-Ngan et al. 179 (1992) 231
